DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the

- “transmission for communicating the rotation of the sprinkler to the hose reel such that the hose reel rotates” recited in claim 1;
- “valve is movable at least between a first position and a second position” recited in claim 1;
- “first position” recited in claim 1;
- “second position” recited in claim 1;
- “dial” recited in claim 3;
- “electrical controller” recited in claim 4
- “remote control unit” recited in claim 5;
- “fluid source” recited in claim 6;
- “second hose” recited in claim 7;
- “ball valve” recited in claim 8;
- “threads or quick disconnects” recited in claim 11;
- “quick disconnects” recited in claim 13;
- “plurality of gears” recited in claim 14; and

- “third position, wherein the supply piping is substantially restricted from fluidly communicating with the discharge piping and the sprinkler piping” recited in claim 15

must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
